CARE INSTRUCTION

Archisonic

The panels are very resistant and can be cleaned and disinfected very easily. The fibre is dyed in the liquid state and does not bleach out. Accordingly, not only alcohols or aldehydes, but also products with active chlorine (e.g. AGRION or similar) are suitable for cleaning / disinfecting the panels.

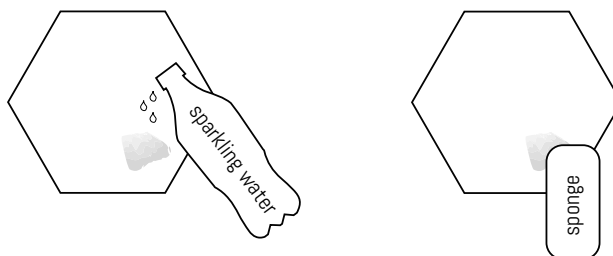

OPTION 1

for dusting use duster or vacuum cleaner

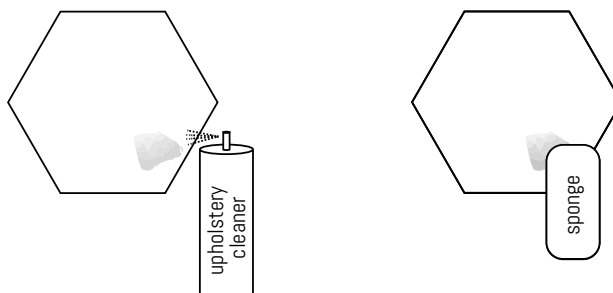

OPTION 2

for slight contamination apply sparkling water on polluted area and wipe carefully with a sponge

OPTION 3

for medium contamination apply upholstery cleaner on polluted area and wipe carefully with a sponge

OPTION 4

for heavy contamination apply bleach as chlorine or hydrogen peroxide on polluted area and wipe carefully with a sponge and sparkling water
